

Process Validation

FDA 2011 Process Validation Guide

DIRECTED BY

Louis Angelucci — Consultant for the Pharmaceutical Industry

Course Topics Include:

- Introduction to 2011 Process Validation Guide
- Other Important Guidance
- Stages of Process Validation
- Clarification of definitions
- Validation and Verification
- Foreign regulations and 2011 PV

about the course

Most industries in the US are regulated by local, state, and federal regulators and pharmaceutical manufacturing companies are some of the most highly regulated, particularly at the federal level. Pharmaceutical Quality affects every American hence the FDA regulates the quality of pharmaceuticals very carefully. The main regulatory standard for ensuring pharmaceutical quality are the Current Good Manufacturing Practice (cGMPs) regulations.

This 90-minute Accredited Course will discuss compliance to the FDA guide on process validation providing an explanation of the concepts and meaning as they apply to the USA Pharmaceutical Industry. The course will explain aspects of compliance to the guideline.

This training is one part of the 10-course series required for the GMP Professional Certification Program. Attend this as a step in the certification process or as a stand-alone course for personal career advancement and training.

For information on pricing, terms/conditions, Team Training, and other courses, please visit **www.TrainwithCobblestone.com**

who should attend

This course has been developed to meet the training needs of professionals in the Pharmaceutical, Medical Device and Cosmetic Industries. It will be especially valuable to those engaged in compliance with FDA regulations, Compliance, QA/QC, Formulation, Production, Manufacturing and Regulatory areas.

Engineers, chemists, QA/QC and manufacturing personnel will benefit greatly by attending this course by understanding the extent of the FDA regulations and how they affect daily job responsibilities.

learning objectives

Upon completion of this course, you will be able to:

- Analyze the guideline in order to properly comply
- Identify and discuss current process validation requirements
- Explain how the Guideline affects you and your job function
- Explain the meaning of PPQ and CPV
- Show the consequences of not complying
- Show logically the best GMP approach
- Identify differences in the performance of Process Validation
- Outline how to apply these definitions to a product
- Illustrate that how you perform and what you make affects the health of many

Assessment Opportunity

course instructor

Mr. Angelucci is a pharmaceutical professional with over 30 years' experience in Quality Assurance, Quality Control, Regulatory Affairs, Validation, consent decree remediation as well as cGMP Compliance in the Medical Device and Pharmaceutical industries

He has worked for several well-known companies including Johnson & Johnson, Bristol-Meyer Squibb, Pfizer, Schering Plough and Merck. His experience has been either as a direct employee or as a contracting consultant while employed at Foster Wheeler and Aker Kvaerner. As a consultant Mr. Angelucci has worked at various project locations domestically and in Europe and Asia. With these firms he has been involved with auditing, GMP training, Bio-tech consulting as well as FDA audit and PAI readiness training and participation.

For information on pricing, terms/conditions, Team Training, and other courses, please visit **www.TrainwithCobblestone.com**

Mr. Angelucci is a degreed engineer with two master's degrees in engineering, holds industry certifications with ASQ as a CQE, CQA and CPGP. Previously, he was the ASQ Philadelphia chapter Education Chair. In addition, he holds a PMP certification through the Project Management Institute. He has published numerous articles on the subjects of Validation and compliance and has been a speaker to industry groups such as ISPE, IVT, DIA, PDA, ASQ and CFPA.

Accreditations

International Accreditors for Continuing Education and Training (IACET)

ACCREDITED

Cobblestone has been approved as a CEU Accreditor by IACET and awards CEUs for participation in qualified courses. Cobblestone has demonstrated that it complies with the ANSI/IACET Standards and is authorized to offer IACET CEUs for its programs. CEUs will be awarded for participation in Cobblestone's courses at the rate of .1 CEU per contact hour upon successful completion of the entire course and 70% accuracy in the required Learners' Assessment. A minimum score of 80% is required for all courses within a Cobblestone Certification Program. This course offers a total of 1.5 contact hours, or .2 CEUs.
